

## Company profile

Noterik B.V. designs and builds video applications for the Internet. Over the last 12 years we have designed our own products to build video applications for a wide range of clients in entertainment, government and education. Our current platform is based on an open development (open source) model where we provide services to clients so they can integrate our platform in their own web applications. This open / cooperation model with clients and third parties act as a guideline for both R&D, Hosting and Sales.

Noterik B.V. offers all its employees a dynamic working environment, challenging projects and good opportunities for personal development.

## Vacancy: JAVA Developer

As a JAVA developer you will be responsible for developing, testing and maintaining complex internet applications. Together with a small and dedicated team, you will be focused on designing scalable, distributed, service orientated, multi-tiered, fault-tolerant services.

## Requirements

1. University or higher education degree in Computer Science.
2. Strong affinity with multimedia applications.
3. Solid knowledge of Java, object orientated programming, and database query languages, such as SQL.
4. Experience with XML, HTTP, and REST is preferred, but isn't mandatory.
5. You should be comfortable with working on a large codebase, and able to work with versioning systems such as CVS
6. You are able and willing to review your fellow-programmers code, and work together to solve problems.
7. You are available for at least 32 hour a week.
8. Knowledge of English both in speaking and writing, Dutch is not required.

## We offer

1. A full-time job working with a lot of freedom in a cohesive team
2. A good balance between responsibilities and chances to learn and develop yourself
3. Exciting project for clients such as [Dance4life](#), [AT5](#), [Jewish Historical Museum](#) and [Kluwer](#).
4. A good salary depending on your experience, knowledge and personal development.
5. A working space in our office located two minutes walking from Amsterdam CS.
